History Of Kitbashing

Kitbashing started with Toy Trains
And Planes people wanting to make
there own design or a not sold one.

Kitbashing Started into grow when
Star Wars took hold of people but
people only had toys of WW2. So
people started to make space ships
out of tanks and planes

Old Spice Space Model
(Credit To By Project Workshop)

Sugested Tools
Tools that can help
Razor Blade or any type of blade
Super Glue, (Plastic Glue works)
Tweeters
Place to cover up a mess
Paint or Spray Paint

Parts Needed

Old Spice Deodorant
Disaamembled Parts Of Either A Tool or
Toy
Extra Parts of Plastic
Green Stuff (Found at stores)

The Goal Of Kitbashing is to be free with
your design

Steps

- Step 1 Disassemble Your deodorant stick
- Step 2: Mark off parts/points with marker where you are going to cut/add on to the stick
- Step 3: Cut carefully and start the process of attaching parts to the model
- Step 4: Grab any extra parts that you wish to use and add it to the model. This can be anything looking mechanical or complex to create the inside and any extra parts.
- Step 5 : Add either more parts like adding nob's to the end of the cap to make it look like a space ship
- Step 6: Put A Spray Can Primer of any kind onto the model. And let it dry.
- Step 7: Spray/Paint any Great effects like rust or metal paints to make the model look real!
- Congrats! : You have built a Kitbashed Scratch Model
